Soil Erosion and Sediment Control Application

(Please Print Name)

(Please Print Address)

(Telephone Number)

Site Location

Do agree to the following requirements as applicable,

Anytime a soil erosion or sediment control problem occurs prompt and necessary measures will be taken by the owner and/or contractor to correct the problem.

Following any soil disturbance temporary or permanent, site stabilization shall be completed within three (3) calendar days on the surface of all perimeter controls, dikes, swales, ditches, perimeter slopes, and all slopes greater than 3:1 (3 horizontal to 1 vertical) and stabilization shall be completed within seven (7) calendar days on all other disturbed or graded areas on the project site.

All phases of construction will adhere to all sediment and erosion control measures as set forth in the approved sediment and erosion control plan for this site.

1. Any clearing, grading, construction or development, or all of these, will be done pursuant to this plan.
2. Responsible personnel involved in the construction project will have certification of training at the Department approved training program i.e. MDE green-card certification for the control of sediment and erosion before beginning the project. Certification may be waived by the approval authority on any project involving four or fewer residential units. And any applicable County requirements.
3. The developer will provide one copy of a red line as-built drawing of each facility requiring an MDE Small Pond Permit. And any applicable County requirements.
