(Telephone Number)

Site Location_____

The above referenced site is exempt from obtaining approval for a sediment and erosion control or SEC plan. This exemption does not free the responsible individual from having to prevent any sediment laden runoff from existing the referenced site. The exemption is issued for the following reason(s):

1. The clearing and grading of the site will disturb less than 5,000 square feet of land area and disturb less than 100 cubic yards of earth.
2. The project includes traditional *Agricultural* land management *Practices*, agricultural Best Management Practices or BMPs, and/or the construction of *Agricultural Structures* less than 1 acre.
3. Clearing and grading activities that are subject exclusively to state approval and enforcement under state law and regulations.

Anytime a soil erosion or sediment control problem occurs prompt and necessary measures will be taken by the owner and/or contractor to correct the problem.
